

## Wednesday Night Bible Study Group 18/07/2018

Reflection: Tonight, we will be reviewing this last term's journey and looking forward to the next term's direction. The main theme we have unpacked over the last number of weeks was exploring effective evangelism with corresponding biblical examples and great training videos by Stu Millar from "Train to proclaim". We have observed these training videos as a group in-conjunction with the BELLS project series we are currently running in the morning services. We also studied up to chapter five of the Gospel of Matthew earlier on in the term. One of the aspects I would also like to explore tonight is what you have gained in being in this Bible study group.

- 1) When thinking about the last term, are there any topics that stood out for you, general impressions in how you have grown, or aspects you would like to comment on?
- 2) What has this Bible study group meant for you in how you have grown in faith?
- 3) Are there other areas you would like to discuss from what you have gained from being a part of this Bible study group?
- 4) How could we improve what we do and why?

5) Nigel is going to present various options we can decide on for next term. Let's together prayerfully consider what option we as a group will decide to study next term. There may be a suggestion/topic on your heart to explore. This is a good thing to discuss, and we can consider it as a group.

6) Let's be in prayer in giving thanks for last term and praying for the next stepping stones of the Wednesday night Bible study group.
